

Remarks

This Amendment After Allowance is submitted to correct a clerical error appearing in claim 40.

In claim 40, "positioning the two effector mechanisms... and applying suction to the effector mechanisms..." has been corrected to read "applying suction to the two effector mechanisms... and positioning the two effector mechanisms..." (Emphasis added).

As amended herein, claim 40 comports with the specification and is believed to correct an obvious error.

Respectfully submitted,

Scott R. Foster
